Major,
Cmdg 158 Inf Bde Wksp REME.

To whom it may concern:

10562957 Cpl. INGSWOOD S.

It has been my privilege to have commanded for a period of 6 months and to have a personal friend in Cpl. Kingswood for a period approaching 4 years the duration of his stay with R.H.A. 53 (A) Div.

Cpl. Kingswood has served with Command Workshops in England for 1 year and then with 53 (A) Div. in 116 Lt. A.A. Regt. for a period of 2 years. Then with 71 Inf. Bde. Workshops for a period of 1 1/2 years. Finally with the disbandment of 71 Inf. Bde. Workshops he was posted to my unit where he has remained until his demobilisation. Since his entry into Field Force Unit I have been a keen observer of Cpl. Kingswood and made endeavours to have him posted to under my command on more than one occasion.

Cpl. Kingswood has proved himself to be an excellent Vehicle Mechanic and capable of a very much higher standard of workmanship than is met in the normal scope of such a trade.

For his ability of organising and supervising men he has been recommended for promotion more than once.

At all times Cpl. Kingswood has been keen, conscientious, honest, sober, trustworthy and thoroughly reliable.

I have no hesitation whatsoever in recommending Cpl. Kingswood for any post where his capabilities and excellent character could be used to advantage.
